Dominion Electors Endorse Mackenzie King Government

Inclement Weather And Bad Roads Fail To Deter Determination Of Voters

With the exception of but one province, British Columbia, voters throughout the Dominion were faced with the worst weather conditions experienced in many years when going to the polls on Tuesday, March 26th. In the Delta district, both the highway and secondary roads were badly drifted and voting was confined mainly to residents of the village during the morning. In the afternoon, however, clearing came from the north road to the highway and electors through the polling booth right up to the door of the church.

With the bad natural in a polling division which only a few days previously had headed the Social Credit provincial campaign by a majority of 58, local electors made a high mark in the major contesting party leaders, and there were many hard and willing workers. In the endeavor to make every vote count, both sides were victims of the usual irrational incidents accompanying such work. One party man is reported to have snatched a vast quantity of money only to bring in an opposition voter, while on the other side a Liberal face got quite red after solicitously picking up a voter who having got stalled, was asked on the snowbound walk, walking into town with grim determination to record his vote the other way.

Taking into account the very unfavorable conditions of the day, the charge of indifference frequently made against the electorate here no foundation in division No. 106. Two hundred and eight votes were cast at the Delta poll, representing 80 per cent of the eligible list of voters. These were distributed as follows:

Few (Lib.)	114
Quebec (S.C.)	73
Smith (C.F.)	2
Spotted Island	2

With the result in Acadia in fact to double Liberal and Social Credit running neck and neck with a few small gaps to be heard from some Alberta constituents to the number of seven among them to the Liberals. These were: Edgar Reid, Mr. H. W. McCreary, Ed. Edmonson, West, Medicine Hat, Athabasca, and Peace River. So far as Alberta is concerned, more results appear to have transpired. Went Calgary, long a Conservative stronghold, elected M. J. Edwards, Liberal; while in Edmonton, considered a safe Social Credit seat, did likewise in electing G. H. Ross, Liberal. Edmonson East also a surprise for the Liberals, electing C. E. Cawston, Liberal, defeating O. Kennedy.

There were also surprises across the Dominion. Hon. R. J. Maclean, leader of the Liberal party, was elected in the Delta district, which was a surprise for the Liberals. Hon. R. J. Maclean, leader of the Liberal party, was elected in the Delta district, which was a surprise for the Liberals.

72 DEATHS FROM ALBERTA ACCIDENTS

Statistics given by the number of motor vehicle deaths in the province last year were given in the annual report of the provincial secretary of transportation, issued recently.

Despite the active measures advocated during the year by branches of the Alberta Motor Association, and by other organizations, no less than 72 motor deaths occurred in the province last year.

While reductions in accident deaths in 1939, the number of deaths in 1938 was 72. The report also stated that the number of deaths in 1938 was 72. The report also stated that the number of deaths in 1938 was 72.

Various organizations, who are associated with the motor industry, are doing everything possible to save lives. The report also stated that the number of deaths in 1938 was 72.

Sudden Death of Well-known Farmer

Joseph Henry, well-known farmer of the Delta district, was found dead inside the trail on Monday afternoon, about 2 p.m.

Some hours earlier, Joseph had been observed by W. C. Carter driving a team attached to a snowshoe southward toward the highway where he had been for some time. It is surmised this was by appointment, as he had been on the trail, as he had been on the trail, as he had been on the trail.

From the previous observation, the fact that the face was snow-covered, it was believed that the farmer had been on the trail, as he had been on the trail, as he had been on the trail.

Obituary

GEORGE W. A. HARCUS George Walter Alexander Harcus, president of the Delta district for 27 years, passed away at his home after a brief illness on March 24th. He was born in the County of London, Ont., on July 24, 1867, and in his earlier years taught school in Ontario and Manitoba; later, he was employed in the Delta district.

He was an ardent worker for the church and Social School, and took a great interest in the Bible Society. He was a kind and good neighbor and will be greatly missed by the community. He was married to Mrs. J. A. Harcus, and they had several children.

He was a member of the Delta district for 27 years, and was a kind and good neighbor. He was married to Mrs. J. A. Harcus, and they had several children.

Smoot Count In Wheat

Latitude Experimental Station, Delta, Alberta

A report received recently from the Board of Grain Commissioners for Canada shows that between April 1st and December 31st of last year, Alberta marketed one hundred and thirty thousand bushels of wheat.

Figure for previous years are not available, but the quantity of wheat marketed in 1939 cannot be compared with that of preceding years. However, a comparison with previous years is not very important. The important thing to note is that the wheat marketed in 1939 was a record for the province.

It is believed that the wheat marketed in 1939 was a record for the province. The important thing to note is that the wheat marketed in 1939 was a record for the province.

Preparing for Peace

The announcement recently by Dr. J. S. Thomson, president of the University of Saskatchewan, to a convention of rural municipalities and counties that in his opinion the changes now being made in the world which trend of our economic, social and political life are impending when they are brought to a conclusion, gives many a man a good deal to think about. The people of this country might well give serious thought to the years ahead and the problems it is likely to bring in its train and how best they may be met in the interests of all.

There has been some disposition on the part of some leaders to put aside the matter of consideration of post war problems, largely on the ground that the time and energy to be devoted to the war might be better spent elsewhere. But the complexity of our difficulties and the magnitude of the task ahead make it imperative that we should not neglect the preparation for peace. It is imperative that we should not neglect the preparation for peace. It is imperative that we should not neglect the preparation for peace.

The World Situation

There, of course, must be agreement with the opinion, sometimes publicly expressed, that the situation in the world is a most serious one. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known.

It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known.

It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known.

The Local Influence

While the world situation is a most serious one, it is not the only one. There is also a local situation which is equally serious. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known.

It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known. It is a situation which is likely to lead to a world war of a magnitude and scope which has never before known.
